

# Commercial & Freelance Photography

Corporate photography can be one of the most varied and diverse subject matters within the whole field of photography. We at S.P.Photographics have over nineteen years experience covering all aspects of commercial and freelance assignments whether it's in our studio or out on location. Working with small and medium sized companies, to multi-nationals, we have provided images for :

- In-house Magazines
- Catalogues
- Leaflets & Brochures
- Advertising
- Exhibitions
- Conferences & Presentations
- Press Coverage & Public Relations
- VIP Visits & Corporate Events

We can provide the complete photography package for your company, from studio based services including still life, product shooting and staff portraits, through to on location industrial, architectural, special events and sporting photography. Our mobile studio equipment allows certain studio work to be undertaken at your own premises, such as staff portraits and product shots, which would mean less disruption for you as staff wouldn't have to leave the company premises during the shoot. This equipment can also be used on location at social functions such as Dinner Dances and Graduation Balls.
